

NEW Welding Equipment NEW **With Local Warranty**

SmartCut 40 Amp Inverter Air Plasma Cutter

Pilot Arc start can cut through painted and rusted surfaces unlike contact start. Simply pull the trigger and the arc starts

High frequency inverter with high duty cycle and low energy consumption!

Product Overview

- High output inverter, high duty cycle, low energy consumption
- Pilot Arc Start.... allowing cutting of painted & rusted surfaces
- Compact & light weight, easy to carry for jobs requiring portability
 - Highest Quality torch
 - Smooth cutting surface with less distortion
 - Up to 100% faster cutting speed than Oxy/Acetylene
 - Adjustable current to allow for precision required applications
- Protective circuit prevents overheating, over current, & over/under voltage
- Suitable for cutting stainless steel, copper, iron, aluminium & other metals

What's Included:

Inverter Plasma Cutter
Air Regulator
Plasma torch 4m lead
Earth Clamp and lead
Spare Consumables
Owner's Manual

Supplied by Nally Radio Towers Pty. Ltd. ABN. 93 116 920 864

Technical Specifications

Input power voltage frequency (V/Hz)	AC240±10%(single phase) 50/60Hz
Rate input power capacity KVA	4.8
No-load voltage (V)	230
Current range (A)	10-40
Rated output voltage (V)	96
Rated duty cycle (%)	60
Efficiency (%)	85
Power factor	0.93
Insulation class	F
Protection class	IP21
Arc-starting	Pilot Arc
Weight (KG)	8
Dimensions (Cm)	37x15x23
No-load loss (W)	40
Max.Cutting thickness (mm)	12
